

# DAY 8

## NATURE SCENES

AGE OF  
CREATIVITY

Today's challenge is set by the Age of Creativity network. The Age of Creativity is a network of more than 1,000 professionals who all believe that creativity and culture supports older people to experience better health, wellbeing and quality of life. You can find lots of events to get involved with online on their website!

### Do

Create the outside, inside. Recreate the natural world in a collage. Use newspapers, magazines, scrap paper, clothes - whatever materials you can find. What landscape will you choose? You might recreate mountains, the sea, a jungle or a snowy scene. You could work off of a photograph or your imagination...

### If you have more time...

Could you repeat this challenge using words?

Write down the words you might use to describe the scene, and layer and shape them to create some word art that captures your landscape.

### Think

Why did you choose the landscape you recreated?

If you could go there, what would you like to experience in that place?

### Share

Share your work in a way that suits you - online, or offline.

Search #CreateToConnect to see what others are up to.
